

Appendix G — Job Description & Salary Band (Self-Funded 3-Year Plan)

Written and prepared by Yusuf Quadri, Founder & CEO, DEQUAD Ltd.

This appendix documents the **one funded hire** in the conservative base-case plan referenced in main document §7.3, the **five-hire job-creation target** for the upside case (§10.4), and the basis on which any hiring beyond Year 3 would be considered. This is a deliberate change from earlier drafts of this plan, which assumed a 42-role, 5-year hiring plan funded by pre-seed, seed and Series A rounds. No external funding is assumed for the base case (Section 10); the hiring plan has been rebuilt around what institutional and premium revenue can actually fund, with the 5-hire job-creation target funded from revenue generated after piloting.

All roles are **UK-based, PAYE, paying UK National Insurance contributions**, and recruited through fair and open processes.

G.1 Hiring summary — 3-year, self-funded

Year	New hires	Cumulative headcount	Basis
Y1	0	2 (founders, unpaid)	No revenue to fund any hire
Y2	0	2 (founders, unpaid)	Revenue still too small/uncertain to justify a hire
Y3	1 (part-time)	3 (c.2.5 FTE)	Funded entirely by Y3 revenue, contingent on 2+ paying universities

Total Y3 wage bill (base case, all roles, incl. modest founder pay): **£20,000 gross / £21,500 incl. employer NI, pension and other costs** (Section 18.3).

Job-creation target, upside case: if institutional revenue scales beyond the base case via pilot conversion (5+ paying universities), the target is **5 full-time hires** on top of the 2 founders (7 total), each sustained at least 12 months at an average salary of £25,000/year — a Y3 gross wage bill of c.£125,000 for the 5 hires, funded entirely from revenue generated after piloting, meeting the Innovator Founder settlement job-creation criterion.

G.2 Year 3 — Safeguarding & Trust Lead (part-time)

Field	Detail
Hire timing	Year 3, contingent on 2+ paying universities — not guaranteed
Commitment	Part-time, c.10 hours/week
Salary band	c.£8,000/yr (pro-rata)
Reporting line	CEO (Yusuf Quadri)
Mission	Support safeguarding triage and escalation as the paying-university base grows beyond what the founder can cover alone; liaise with partner-university DSLs
Must-have	Relevant safeguarding qualification (Level 2/3 Safeguarding Adults or equivalent); HE, NHS or charity safeguarding experience; enhanced DBS
Recruitment channel	Charity Job, NCVO, AMOSSHE network

G.3 Job-creation target (upside case) — 5 full-time hires

If institutional revenue scales beyond the conservative Y3 base case via pilot conversion (5+ paying universities), the plan's job-creation target is **5 full-time UK roles**, each:

- Full-time, UK-based, PAYE, paying UK National Insurance contributions
- Sustained for at least 12 months
- Paid an average salary of £25,000/year

This meets the Innovator Founder settlement job-creation criterion of 5 jobs for persons settled in the UK, each existing for at least 12 months, at an average salary of at least £25,000/year. These 5 roles are funded entirely from revenue generated after piloting, not from any external funding round.

#	Role	Commitment	Salary band	Hire timing	Reporting line
1	Student Ambassador	Full-time	£25,000/yr	Year 3, contingent on 5+ paying universities	CMO (Dr Gerald Marfo)
2	Social Media Manager	Full-time	£25,000/yr	Year 3, contingent on 5+ paying universities	CMO (Dr Gerald Marfo)
3	Marketing Intern	Full-time	£25,000/yr	Year 3, contingent on 5+ paying universities	CMO (Dr Gerald Marfo)
4	Sales Lead	Full-time	£25,000/yr	Year 3, contingent on 5+ paying universities	CEO (Yusuf Quadri)
5	Support Agent	Full-time	£25,000/yr	Year 3, contingent on 5+ paying universities	CEO (Yusuf Quadri)

Each of the 5 roles is £25,000/yr, all full-time, hired in Year 3 once institutional revenue scales via pilot conversion (5+ paying universities) — meeting the settlement job-creation criterion's average-salary threshold exactly. Mission and must-have detail for each role follows below.

G.3.1 Student Ambassador

Field	Detail
Mission	Drive on-campus adoption at partner universities — represent DEQUAD at freshers' fairs, SU events and society meetups; run peer referral pushes; feed student feedback back into the product roadmap
Must-have	Current student or recent graduate of a UK university; prior involvement in SU, society or student-rep leadership preferred; comfortable representing the brand in person on campus

G.3.2 Social Media Manager

Field	Detail
Mission	Own DEQUAD's organic and paid social presence (Instagram, TikTok, LinkedIn) to drive premium subscriber growth and brand awareness among UK students; plan the content calendar around each partner university's rollout
Must-have	Proven social media management experience, ideally with a consumer or student-facing brand; content creation and platform-analytics skills

G.3.3 Marketing Intern

Field	Detail
Mission	Support the Social Media Manager and CMO with content production, campus marketing collateral and campaign execution across partner universities
Must-have	Marketing, digital media or related degree/coursework; strong writing and basic design skills; based in or able to work from London

G.3.4 Sales Lead

Field	Detail
Mission	Own the institutional sales pipeline end-to-end — lead generation, outreach, and closing paid university and NHS ICB contracts; manage each account from pilot conversion through renewal
Must-have	B2B/enterprise sales experience, ideally in EdTech, higher education or public-sector software; able to run a full sales cycle independently

G.3.5 Support Agent

Field	Detail
Mission	Front-line support for students and university admins via in-app chat and email; triage non-safeguarding queries directly and escalate safeguarding-relevant issues to the Safeguarding & Trust Lead per the existing escalation pathway
Must-have	Prior customer support experience; empathetic, clear written communication; completes DEQUAD's safeguarding awareness training within the first month

These five job descriptions are a first draft for review — mission and must-have detail is not yet finalised or presented as committed.

G.4 Further roles beyond the job-creation target — not part of this plan

Any hiring beyond the 5-hire job-creation target above is a longer-term ambition, not a commitment. It would only happen if institutional revenue significantly exceeds even the upside case, or if a future funding round is raised — neither of which is assumed here.

G.5 Diversity, equality, and inclusion commitments

Even at this small scale, DEQUAD commits to:

- **Open advertising** for each Y3 hire on at least two channels for at least 14 days before any offer.
- **Blind shortlisting** at CV-screening stage (name, university, address removed).
- **Structured interview rubric.**
- **Pay-band transparency** — salary published in the job advert.
- **Hiring-mix aspiration** — as the team grows beyond Year 3, DEQUAD aims for at least 45% female and at least 30% minority-ethnic representation, reported annually once headcount is large enough for this to be meaningful.
